Summary

Software developer with 3+ years of experience in website design, adaptation, and maintenance. My goal is to secure a challenging position as a software Developer where I can effectively contribute towards the company's goals using my technical, innovative and logical skill sets for professional growth. I am an enthusiastic and determined individual keen to learn new concepts.

Professional Experience

DEVtrust - DevTech Enterprises Pvt. Ltd.

October 2023 – Present

Software Developer

Lucknow, Uttar Pradesh

- Spearheaded multiple projects at Devtrust, demonstrating adept project management skills from initiation to completion.
- Implemented agile methodologies for improved efficiency and client satisfaction.
- Demonstrated strong problem-solving skills by effectively identifying and resolving complex technical issues.

Sas One

July 2021 – September 2023

Programmer

Lucknow, Uttar Pradesh

- As a ReactJS developer at SAS, I played a pivotal role in developing and maintaining robust web applications using cutting-edge technologies.
- From designing responsive user interfaces to implementing complex features, I contributed to the continuous improvement and innovation of SAS's web-based platforms.
- I ensured that our ReactJS applications delivered optimal performance across various devices and browsers.

Relevant Projects

DEVtrust - DevTech Enterprises Pvt. Ltd. | *Next.js, React.js, Tailwind UI, Material UI, JavaScript, TypeScript*

- As a key member of the project team, I contributed to the development of a cutting-edge web application utilizing ReactJS and Redux Toolkit. Collaborating closely with cross-functional teams.
- I played a pivotal role in designing and implementing frontend components and features to meet project requirements.
- By leveraging Redux Toolkit for state management, I ensured the scalability and maintainability of the application.
- I collaborated closely with designers, backend developers, and QA engineers to ensure alignment with project requirements and specifications.
- I actively participated in sprint planning, daily stand-ups, and retrospective meetings to drive project progress and alignment with project objectives

Sas One | *Next.js, React.js, Tailwind UI, JavaScript, RestAPI*

- At SAS One, I played a crucial role in the development of Times Ascent, a prominent project aimed at providing users with a comprehensive platform for career opportunities Leveraging ReactJS and Tailwind CSS.
- Times Ascent serves as a testament to our team's commitment to delivering innovative solutions that cater to the evolving needs of job seekers and employers alike.
- I utilized Bitbucket for version control and collaboration, enabling seamless code management and integration within the project team.
- Effective collaboration and code quality were paramount to the success of the Times Ascent project.
